

## TEMPLINE – DIGITAL LED TEMPERATURE DISPLAY

The Linnos industrial time temperature and humidity LED display sign is a high-quality display solution designed for industrial environments. This LED display sign is capable of displaying time, temperature, and humidity in real-time, providing accurate and reliable information for workers and visitors alike.

The display sign is built to withstand harsh environments, operating in temperatures as low as -9 degrees Celsius and as high as 65 degrees Celsius, making it ideal for industrial settings where extreme temperatures are common. The LED display is also highly visible in daylight, ensuring that workers can read the time, temperature, and humidity information at a glance.

Whether you need to keep track of time, monitor temperature and humidity levels, or simply improve communication in your workplace, the Linnos industrial time temperature and humidity LED display sign is an excellent choice.

# DIGITAL LED DISPLAY SERIES

<b>MODELS AND SPECIFICATION</b>	<b>The 200 Series Digital LED</b>	<b>The 300 Series Digital LED</b>	<b>The 400 Series Digital LED</b>
			
<b>Digit Height</b>	200mm	250mm	356mm
<b>Distance of Readability</b>	72 metres	90 metres	128 metres
<b>Optimum Viewing Angle White</b>	65°	65°	65°
<b>Maximum Power consumption</b>	16W	34W	45W

Input Voltage	230V AC
Warranty	2 Years
Cabinet Material	Aluminium
Temperature Range	-40deg to +65deg
Temperature Accuracy	+/-1deg between -9deg and +80deg
CE & ROHs	Yes
